

WHO WE ARE

European leader in technological services, CEGELEC Défense has been providing its expertise in integrating solutions and systems for major Defence and Security projects for 50 years in 2017.

Cegelec Défense Identity

Cegelec Défense company is a subsidiary of **VINCI Energies** with head Offices in Toulouse (France). The company houses two Business Units sharing a common development strategy, the same high-added value expertise and the same appreciation of the need to protect information with regards to their activities in the Defense and Security sectors and for other custom or turn-key projects.

Cegelec Defense ensures long-term competitiveness for all customers by gathering lessons learned from deployed Armed Forces. The company continuously integrates new operational requirements and technological innovations, and through constant dialogue with various networks, both inside and outside VINCI Group (Defense and Security actors, clusters, industrial consortia, etc.)

Cegelec Defense Solutions & Services

In charge of designing and manufacturing support solutions to be deployed in response to operational crisis (shelters). The Business Unit also conducts studies and acts as the prime contractor for projects involving the integration of industrial equipment, and the maintenance of the equipment in operational condition.

Cegelec Defense Infrastructures & Réseaux

Whether acting directly as the prime contractor or in partnership with another prime contractor, CEGELEC Défense Infrastructures & Réseaux designs and produces complex, hardened infrastructures to house strategic communication and transmission systems.

In charge of designing and installing facilities on sites, as well as the related logistic support operations and Follow On
